**Skoki Lodge**, situated in the beautiful high alpine of Banff National Park, is an ideal destination for hikers and skiers. The rustic lodge, built in 1930, offers guests fabulous food and comfortable accommodation after hiking or skiing eleven kilometers into the Skoki Valley. From the lodge one has an excellent base to explore the accessible mountain ridges and adjoining valleys. In the summertime one can wander through meadows ablaze with wild flowers, past glacial lakes of turquoise blue, or perhaps catch some rainbow trout at the picturesque Red Deer Lakes. In the winter, when the valleys are covered with snow, one can tour and telemark in that renowned Rockies powder.

Come join us in the Skoki experience.
